Plan Overview

A Data Management Plan created using DMPonline

Title: 'The Armenian Roots of Silvester Krčméry'

Creator: Anna Kaiser Karapetian

Principal Investigator: Anna Kaiser Karapetian

Data Manager: Anna Kaiser Karapetian

Affiliation: Univerzita Karlova

Template: DCC Template

ORCID iD: 0009-0002-6934-439X

Project abstract:

Slovak doctor Silvester Krčméry together with Vladimír Jukle, founded a secret church in Slovakia during the communist era. For this and his other activities against the communist regime, Krčméry was imprisoned for 13 years, from 1951 to 1964. Silvester Krčméry, a man who played a significant role in the history of Slovakia, wrote in his biography, that his grandparents were representatives of four different nations, his grandfathers were Slovak and Polish, and his grandmothers were Hungarian and Armenian, respectively. Krčméry's Armenian grandmother, Anna (Netti) Zakharias, was an noblewoman from Transylvania, and the wife of Karol Krčméry, a long-time Latin teacher at Armenian gymnasium in Transylvanian Elisabetpolis, well-known linguist, Slovak and Czechoslovak politician and interwar senator of the National Assembly. The events dedicated to the 100th anniversary of Silvester Krčméry, also arouse interest in Krčméry's Armenian roots and characer, as well as the history of Armenians in Transylvania.

Data Collection

What data will you collect or create?

The data collected for this research consists of archival documents, memoirs and secondary literature on Transylvanian Armenians, as well as research data on their genealogy.

How will the data be collected or created?

All the data will be collected from the archives, libraries and on-line resources. Krčmérys' family archive will also be used for comparison and analysis. For the data collection a visit to Budapest and several meetings with Armenologists and prominent Armenians are planned there. Rich material of 'Orer' Armenian European Magazine (co-founded by me) on Transylvanian Armenians, (i.e Armenians in Hungary, Romania, Western Ukraine) will also be used. A new family tree will be drawn as new data on Silvester Krčméry's ancestors.

Documentation and Metadata

What documentation and metadata will accompany the data?

No additional documentation and/or metadata will be created in this research.

Ethics and Legal Compliance

How will you manage any ethical issues?

The extended Krčméry family is very much waiting and ready for any material, thus all the data is firstly discussed with the family members. Other legal and ethical issues will be handled according existing guidelines, as well as responsible and proper citation.

How will you manage copyright and Intellectual Property Rights (IPR) issues?

I retain the copyright and intellectual property rights (IPR) for my work. The research will be available to the public through open-access.

Storage and Backup

How will the data be stored and backed up during the research?

The data collected during this research will be stored on my personal computer, my flash disk, which is used for backups, as well as an external data storage disk with all of my collected material.

How will you manage access and security?

Although there are no security risks in this case, my main computer, the flash disk with collected data and external storage are always kept at home and no one can have access to my research data.

Selection and Preservation

Which data are of long-term value and should be retained, shared, and/or preserved?

I have all the photos of archival documents and pages of secondary literature, as well as the downloads of on-line resources. All the collected data will be preserved a/ for using any moment if necessary b/ for new studies. There are no contracts or legal regulations demanding the deletion of the collected data for this research.

What is the long-term preservation plan for the dataset?

I will keep the collected materials in the aforementioned storages for at least five years to ensure easy future access and reference if necessary.

Data Sharing

How will you share the data?

The collected material is not for sharing. One photo will be shared with Silverster Krčméry's extended family. The outputs will have open access.

Are any restrictions on data sharing required?

The collected data for this research is not for sharing. My research has and will remain GDPR compliant, ensuring data protection and privacy.

Responsibilities and Resources

Who will be responsible for data management?

I will be responsible for the data before the publication of the article which is planned at the end of 2024 or at the beginning of 2025.

What resources will you require to deliver your plan?

I will not need any additional requirements for this data.

Planned Research Outputs

Conference proceeding - "„Vy máte moc, ale my máme pravdu!" "
The event will be dedicated to 100th anniversary of Silvester Krčméry.

Book chapter - "Silvester Krčméry-100"
'The Armenian Roots of Silvester Krčméry'
